FOR IMMEDIATE RELEASE

TeknoGRID (TEM360GES) Delivers Nation’s Fastest Public/Private Wi-Fi and Broadband

Smart City Infrastructure for Buildings and Places

Newark, NJ, November 2, 2018 ---TEM 360 Global Enterprise Solutions, LLC. announced its rebranding under its registered DBA known as, TeknoGRID, LLC. TeknoGRID has become a leading digital master-planner, supplier, and constructor of Smart City infrastructure. Technology engagements range from public - private high-rise buildings, parks, transportation corridors and commercial districts including 900 Mbps Wi-Fi / 2.5 Gbps Broadband.

“We strongly feel that the new name reflects the company’s big vision. TeknoGRID is evolving as a recognized leader and driving force in the deployment and servicing of Smart City and IOT state of the art systems integration. With our most recent expansions into New York and Pennsylvania, we obtained SBE and MBE statuses. Rebranding TEM360 to TeknoGRID embodies these major developments and expresses the larger focus to expand globally and employ locally. We are committed to doing “good things” for our client and community as part of every project!” states CEO and Founder, Marland Jenkins.

E-Commerce, Geographic Expansion and SBE/MBE Certifications

TeknoGRID’s new E-Commerce platform streamlines delivery of turnkey telecom/IT infrastructure delivery, along with operations expansion to New York, Pennsylvania, and North Carolina. Federal, State, and Regional/Local SBE and MBE Certifications, in tandem with quality services and products, provide a competitive advantage to our clients and customers. They include Federal SBE and MBE designations, Port Authority NY/NJ SBE and MBE, New Jersey SBE and MBE, and Pennsylvania SBE.

About TeknoGRID

Founded in Newark in 2009, TeknoGRID has provided clients top tier technology, telecom, and SMART City services and equipment. They design, construct, operate, and maintain IT and telecom systems for public and private facility renovation, rehabilitation, upgrades, and new construction.
